

# Pre-Certification Certificate Courses

## WHAT ARE PRE-CERTIFICATION CERTIFICATE COURSES?

Certificate courses are a single course of study. Students taking these Pre-certification courses are in need of satisfying the requirements other institutions, especially in meeting the admissions requirements of that institution. Students often find that some of their prior class work, such as Biology, Chemistry, and Algebra is not accepted because the student took the courses so long ago that, it is no longer honored by Colleges and Universities for admission requirements.

Although any ECTS certificate courses may be used to meet these requirements, we have identified the courses listed here as the most sought after by students attempting to enter the Health Profession.

*All of these courses are priced at \$196!*
